

# NEXVOO® financing

## online application w/ credit decisions in less than 2 minutes.

### Available Leasing Programs

NEXVOO® gives you the power to finance equipment with predictable monthly payments, letting you focus on running your business or organizations. Ask about the availability of the following financing programs for your NEXVOO®:

- **Lease-To-Own (LTO)** provides for ownership of the equipment following the receipt of all scheduled payments.
- **Fair Market Value Equipment Lease (FMV)** provides the lowest payments possible for a defined period of time. At the end of that period options exist to return, purchase or continue to rent the equipment.
- **No Payment for 90 Days** is a Deferred Payment Program offering three months with zero payments.
- **TurboLease** is a 14-payment program that allows lessees to own the equipment at the completion of payments, without using upfront capital, lines of credit or credit cards.

NEXVOO® financing provides three critical advantages:

- 1. Convenience.** Complete the entire process from application to funding on a mobile device or computer, making it easier than ever to get equipment.
- 2. Speed.** With online credit decisions in less than two minutes, full applications in less than 15 minutes, and same-day funding possible, you can get their equipment right away – no financial services provider delivers completed approvals faster.
- 3. Flexibility.** We supports transactions over a large range of price point, and work with a variety of credit profiles. We offer financing on equipment other providers won't consider.
